

Storytellers set their futures on round years

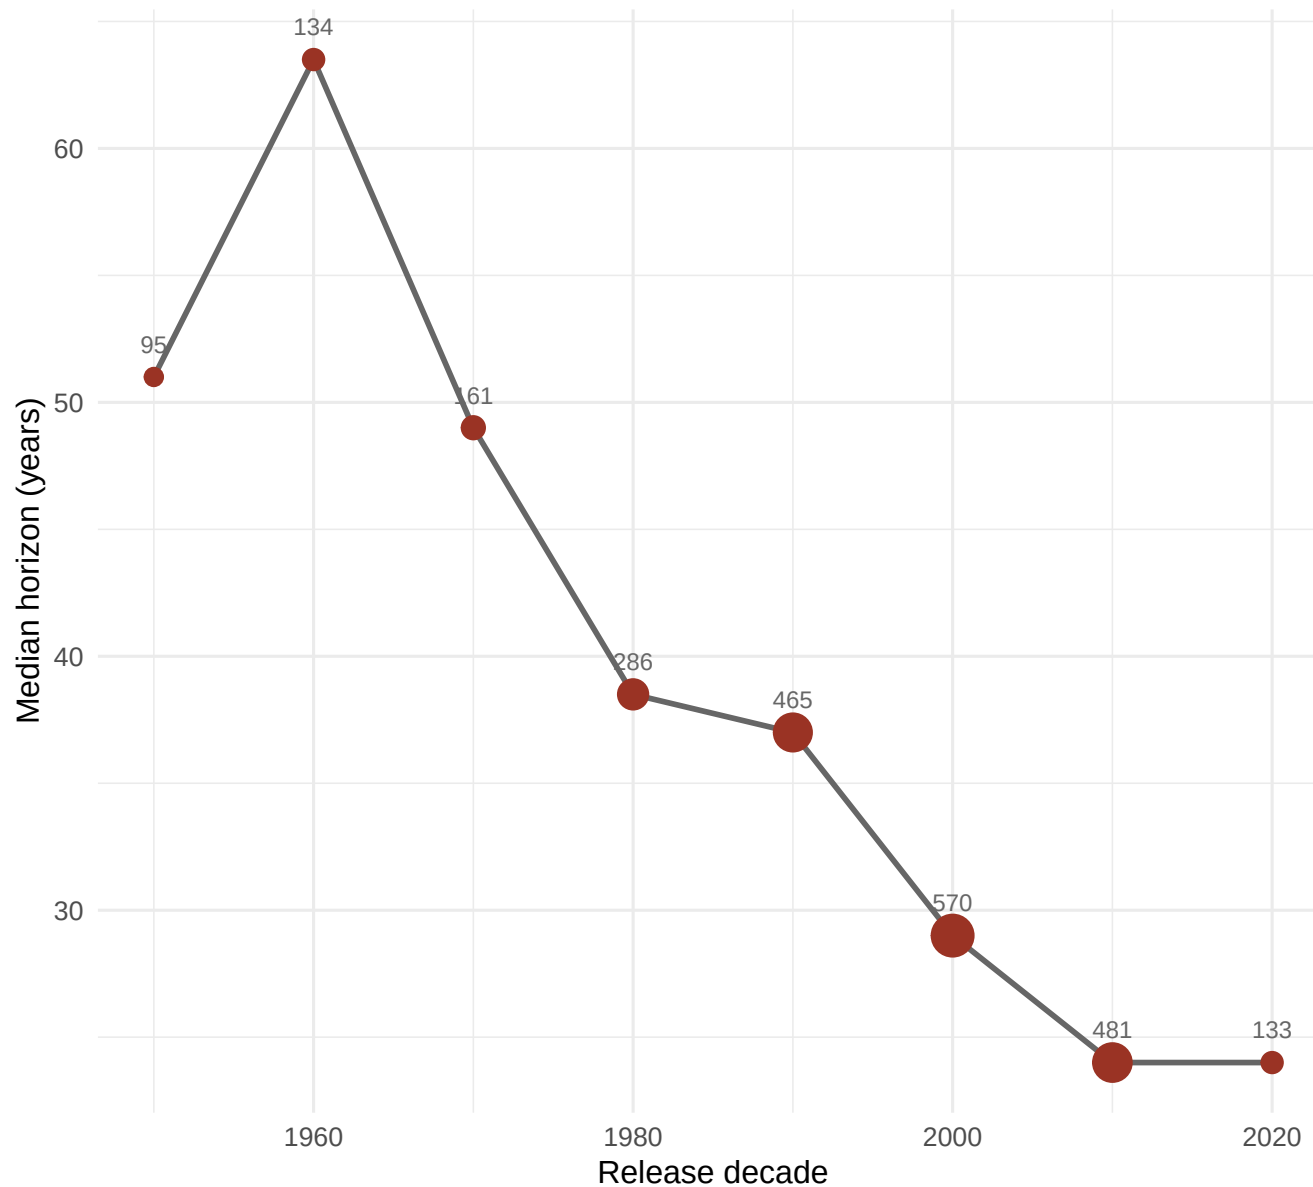

Number of works set in each year, 1950–2150

The typical imagined future is getting closer

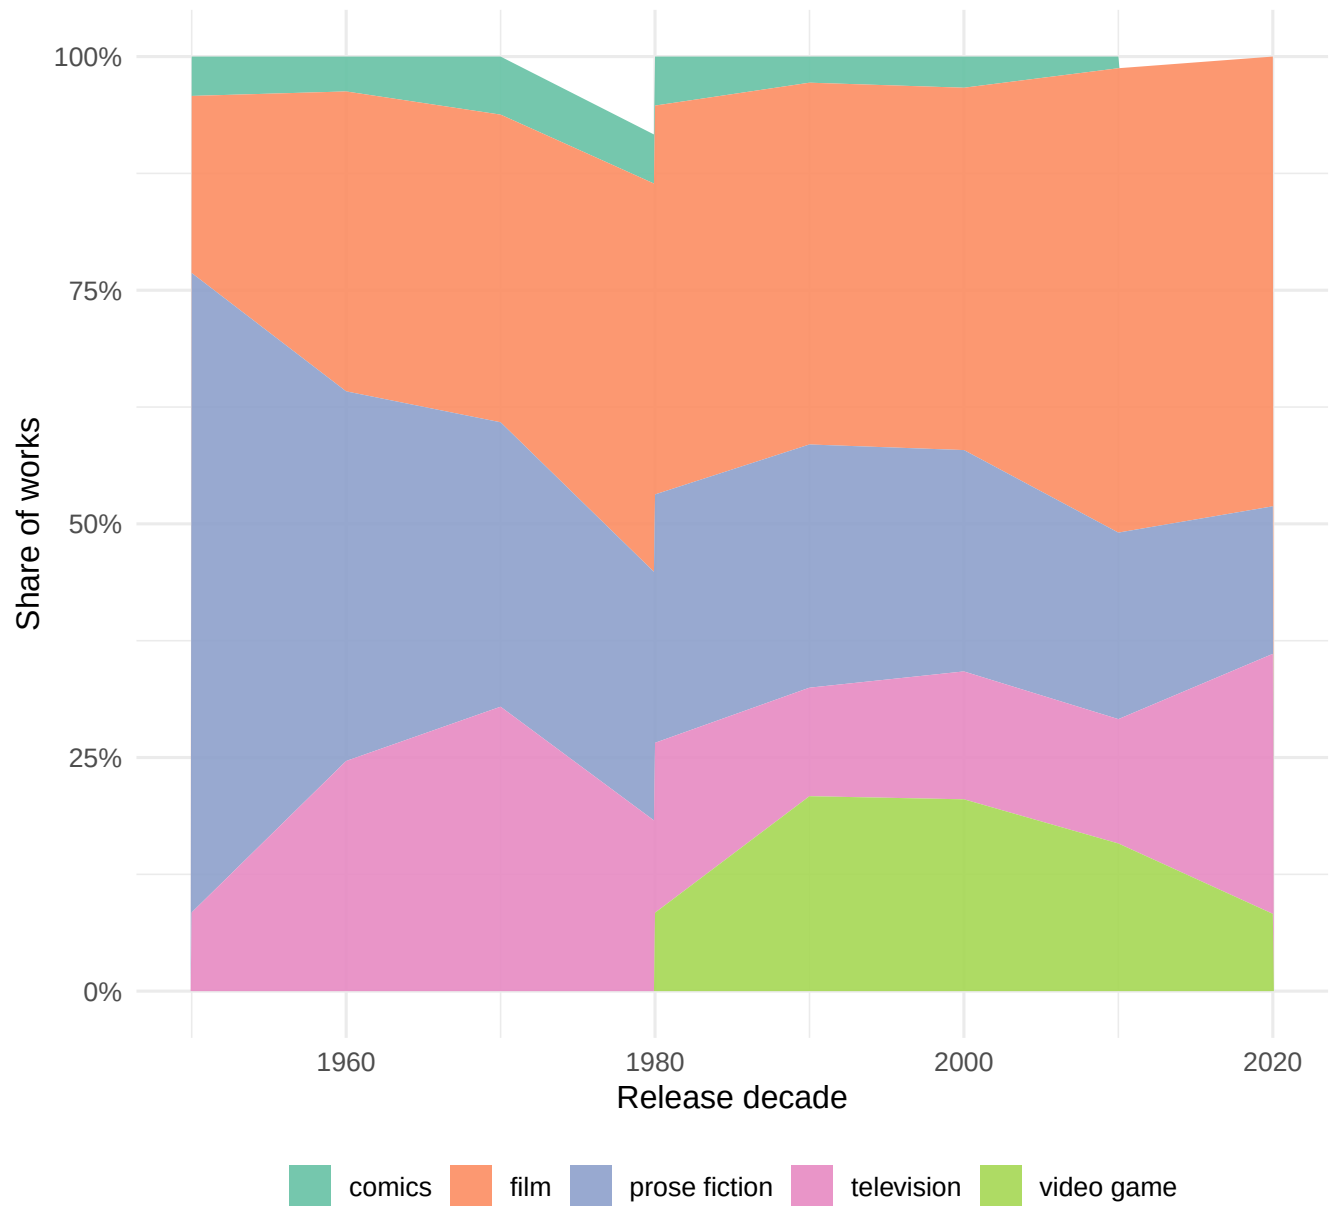

Median years between a work's release and the year it depicts.

Point size and label show the number of works.

What changed was who was doing the imagining

Share of futuristic works by medium, per release decade

The decline is not the same in every medium

Median horizon by decade, log scale. Cells with fewer than 10 works are omitted.
